PROFESSIONAL SUMMARY

Software Engineer with around 1 year of experience developing scalable full-stack web applications using the MERN stack. Experienced in designing REST APIs, implementing secure authentication and authorization, integrating payment gateways, developing interactive 3D product customization systems using Three.js, and deploying production-ready applications. Passionate about writing clean, maintainable code and building high-performance user-centric solutions.

SKILLS

- **Programming Languages:** JavaScript (ES6+), TypeScript, Java, Python, C
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Material UI, Responsive Design, WebSocket, Lazy Loading
- **Backend:** Node.js, Nest.js, Express.js, RESTful APIs, JWT, Email OTP Authentication, Socket.IO, Multer, RBAC
- **Database Management:** MySQL, MongoDB, MongoDB Atlas, PostgreSQL
- **API & Integrations:** Axios, Third-Party APIs, Payment Gateway, Cloudinary, Google Maps API, REST Api
- **3D Technologies:** Three.js, GLB Model Integration, JSON Based Text Template Rendering
- **Tools & Platforms:** Git, GitHub, Postman, Linux, Prisma, AWS, VPS Deployment, Ai-assisted development
- **Core CS:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

EXPERIENCE

Software Engineer

Webmobril INC | Oct 2025 – Present

- Developed and maintained production-grade MERN stack applications serving multiple client projects.
- Designed and integrated scalable REST APIs for admin panels and customer-facing applications.
- Built authentication and authorization modules using JWT and Role-Based Access Control.
- Integrated payment gateways including PayPal, Braintree, and Venmo for secure online transactions.
- Developed complex product customizer using Three.js, and GLB models for interactive 3D product visualization.
- Optimized application performance, fixed production bugs, collaborated through Git workflows, and participated in deployment and feature releases.

PROJECTS

Letter Jacket Customizer - React.js • Node.js • Express • MySQL • Three.js

- Developed an advanced product customization platform for American school merchandise.
- Built interactive jacket and fleece customization supporting multiple positions for patches, texts, and color.
- Implemented dynamic template rendering using JSON-based configuration.

Genesis Lumina - React.js • CSS • Tailwind • Motion Animations

- Developed a responsive corporate website using React.js.
- Implemented reusable UI components and optimized responsive layouts.
- Fixed production UI issues and delivered the project within client deadlines.

DesiKrishak - React.js • Node.js • Express • MongoDB

- Built a full-stack agriculture marketplace connecting farmers with buyers.
- Implemented secure authentication, product listings, profile management, and location-based product discovery.
- Developed REST APIs using Node.js and Express with MongoDB backend.

EDUCATION

- **Bachelor of Technology (Computer Science & Engineering – Data Science)**
ABES Institute of Technology, Ghaziabad | 2022 – 2026 | CGPA: 7.97/10
- **Senior Secondary (Class XII)** SGM Inter College, Agra | UP Board | 2021 | 84%

ACHIEVEMENTS

- Hacker Rank – 4★ in Java and C - Solved 250+ coding problems across LeetCode and HackerRank
- Built and deployed multiple production-grade MERN applications
